Simple, Seamless, Scalable PDF and Document Accessibility

AI-powered software plus industry-leading support services to help your organization confidently meet PDF and document accessibility and compliance requirements of ADA Title II, Section 508, HHS, EAA, and more.

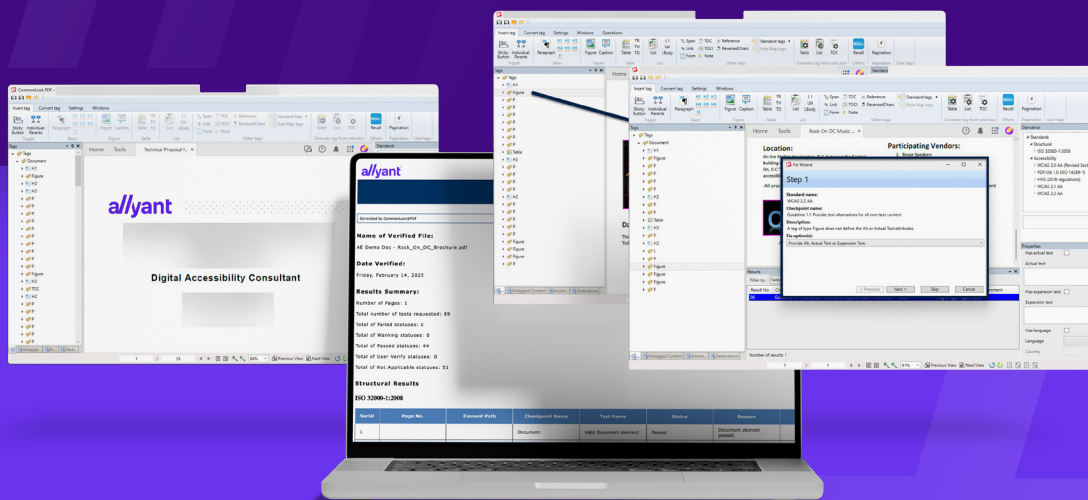

Efficiency Meets Accessibility

AI-driven software plus expert services equip your team with the resources needed to easily remediate PDFs at scale, ensuring they're compliant from the start.

Our industry-leading **CommonLook software suite** will build internal capacity while supporting continuous improvement— so that you can meet compliance requirements while ensuring your PDFs are accessible for all.

Plus, our unrivaled **PDF remediation team** is led by experts who help write the globally accepted PDF standards. We can manage one document—or thousands, with each one backed by our 100% conformance guarantee.

Software Surpassing the Standard

Allyant's powerful suite of CommonLook software discovers, tests, and monitors PDF accessibility, with simple, scalable tools to equip your team to fix any accessibility issues found.

Start with a Scan

PDF Validator

Test the accessibility of individual PDFs, identifying any accessibility issues with our Adobe Acrobat Pro plugin, the [CommonLook PDF Validator](#).

Clarity

Scan your website, intranet, portal, or repository, discovering large volumes of PDFs, testing each one for accessibility, with [CommonLook Clarity](#).

Remediate at Scale.

CommonLook PDF

Leverage AI auto-tagging to remediate PDFs with our market-trusted PDF accessibility software [CommonLook PDF](#). Built with simplified and advanced editors supporting varying skillets and document complexity.

CommonLook Office

Enhance your Microsoft Suite with [CommonLook Office](#). Our software guides users through compliance standards, supporting quick creation of accessible PDF files from Word (doc, docx) and PowerPoint (PPT, PPTX).

CommonLook Edu

Quickly create accessible learning materials with [CommonLook Edu](#). Inputs include PDF, Word, NIMAS, and ePub, with accessible outputs that include PDF, reflowed large print, e-text and braille.

Services Simplifying Compliance

Whether you have hundreds, or thousands of PDFs reflecting a simple structure or more complex with forms and tables, let our experts—the largest, most experienced team in the world—remediate your PDFs for you, ensuring accessibility and compliance, with each document backed by our 100% conformance guarantee.

High Expectations Supporting High Volumes

Large quantities of recurring, templated documents? Our system leverages advancements in AI to keep pace with high volume—speeding up production while lowering costs. And we can automatically batch produce large quantities of accessible PDFs or enable on-demand access at your users' requests.

Credit card and bank statements

Utility and telecom invoices

Tax forms

Medical bills

Medicaid and Medicare enrollment forms

Healthcare directories and pharmacy formularies

Streamlined and Secure

Our processes and production facilities adhere to the highest standards of security and confidentiality, have been engineered to follow NIST 800-53 recommendations, and are HIPPA, SOC 2 Type 2, and PCI-DSS certified.

Trusted by

80% of the largest U.S. financial institutions

100% of the largest Canadian financial institutions

40% of the largest telecommunications providers
